What CISOs Want From IAM Leaders

Identity-aware cybersecurity

Secure access to business applications

Credit for IAM success

Deliver What CISOs Want From IAM Leaders

1

Embed business strategy in every IAM decision

2

Make IAM easy for the business to consume

3

Standardize capabilities to scale effectively

Deliver What CISOs Want From IAM Leaders

1

Embed business strategy in every IAM decision

2

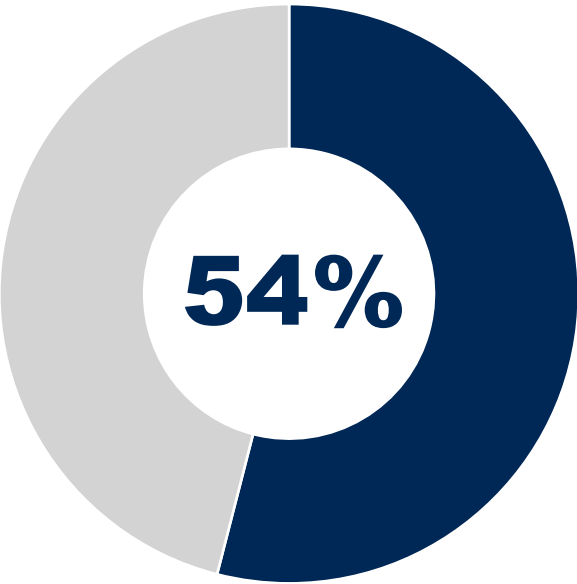

Make IAM easy for the business to consume

3

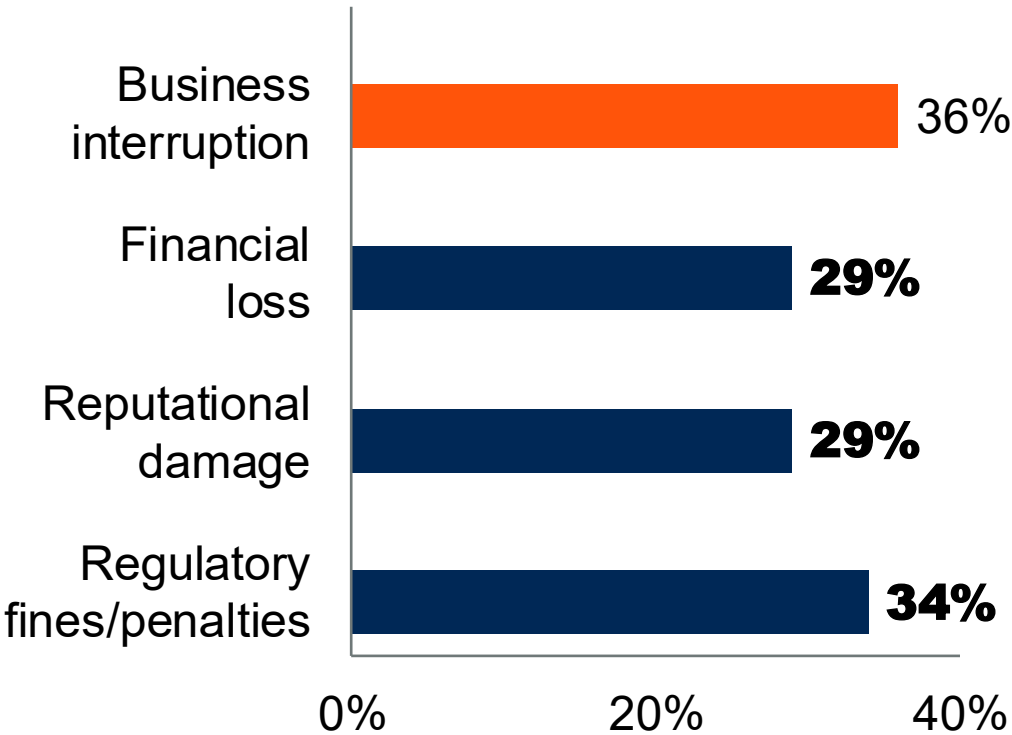

Standardize capabilities to scale effectively

Identity Incidents and Impact on the Rise

Increasing **number** of identity-related incidents

Increasing **impact** of identity-related incidents

Source: 2024 Gartner IAM Leadership Survey

73% of IAM Teams aren't effective against Identity-related Cybersecurity Incidents

Identity-related risk outcomes in Gartner Survey

Minimize loss and disruption

- Detecting
 - Responding
 - Recovering
 - Deprovisioning/provisioning
- Identity-related incidents*

Only 27% of IAM teams execute effectively on key cybersecurity outcomes

n = 335

Position IAM as a **strategic business ally by moving in lockstep to prioritize business needs and secure business initiatives.**

Action Plan for IAM Leaders

Tomorrow morning

- *Answer:*
What is the brand you want to build for IAM?

Next 90 Days

- *Assess and integrate* IAM strategy with cybersecurity strategy.
- *Align* IAM strategic planning with key business drivers and map capabilities to business outcomes.
- *Build* a roadmap for adopting identity-first security.

Next 12 Months

- *Revisit* strategy continuously based on changes in cybersecurity strategy and business strategy.
